Are you struggling to remote work effectively?

Employees can't find information

Employess are able to find information only 56% of the time.

(IDC, 2018)

Remote work demand is growing

70% of workers prefer to move to full-time remote work.

(Valoir, 2021)

Finding information is costly

1/4 of the salary employees make is lost due to looking for information.

(IDC, 2018)

How can effective remote work help you?

"Team **collaboration is one of the biggest factors** that will **contribute to the success of any business**... companies that **actively work together to leverage collaboration** as an organizational skill **are 5x more** likely to **be high performing**."

aiim

What technology do you need?

Scanning and Capture Software

Convert paper-based documents into electronic files that can be shared by employees anywhere.

Cloud Information Management

Provide secure access to information from anywhere, at anytime, on virtually any device.

Workflow Automation Capabilities

Streamline business processes by instantly routing information to the next process step.

How does PaperVision® make remote work easy?

With remote work, PaperVision helps you securely...

Collect and Capture

Organize and Store

Access, Find, and Deliver

Enable Automation

Workflow and Approval

Retain and Destroy

We love that we can personalize how we code the documents to suit how we use them. The flexibility of **PaperVision®** has been **key to our success**. We have saved **$891,000 in office space alone!**"

- Georgia Pelton, Accounts Payable Administrator

"ImageSilo® is the heart of our business and has simplified our approval process. Now I can approve packets while traveling or sitting at home. It has taken a lot of pressure off because I can process approvals when I want."

- Robin Strauser, Deputy Executive Director
